Missouri Pacific Checks a Rise After a Moderate Rally.

Sandy Hook Lightship to Be the Starting Point.

The Wall street markets were far less active this morning than yesterday. Prices were all down at the start on selling orders from London, and a pressure from local bear sources.

After the first hour prices ruled on a little higher level.

The fact that gold cannot be exported at a profit on account of the drop in exchange yesterday gives the traders a little more courage, and the shorts are disposed to reduce their outstanding lines.

As the morning advanced a scarcity of stocks was developed, and under the lead of the market leaders, who had ruled to 16, there was a moderate rise right through the list.

Distillers was strengthened by reports from London that the May and Means Committee will recommend an increase in the tax on distilled spirits.

Reading declined 1 1/4 to 12 1/2 on the announcement that the Company will default on the October interest of the first mortgage 4%. Other important issues were: C. & H. 1 1/2 to 12 1/2; V. & G. 1 1/4 to 12 1/2; in Burroughs to 12 1/2; in Western Union to 12 1/2; in Chicago Gas to 12 1/2 and 14 in General Electric to 12 1/2.

Suburban Distillers rose 1 1/8 to 22 3/8; General Electric 3 1/4 to 41 1/2; Louisville 3 1/2 to 50 1/2; and Northern Pacific 1 1/2 to 50 1/2.

Posted rates of sterling exchange have advanced to 4 1/2-4 1/4.

Later in the day stocks made a further rally, but the market was again checked by a sudden drop in Missouri Pacific from 23 3/4 to 21 1/4. The sales on the way down were by no means large.

Reading, General Electric and a few others concerning which many unfavorable rumors have been put about recently were up another point.

There was a moderate borrowing demand for stocks. New York Central, Union Pacific and Northern Pacific preferred 12% premium; Western Union 1 cent flat, and other stocks at from 1 to 3 per cent, for carrying.

American stocks were carried over in London, and the quotations show which are the lowest banking rates recorded for a very long time. The only stocks especially scarce were New York Central, Northern Pacific and the like, which has for some time past been scarce, loaned to-day at the same rate as the general list.

The money market is easy for call loans at 2 1/2 per cent, but time money is scarce, and per cent, is the ruling rate.

The Treasury had a debt balance at the Clearing-House this morning of \$94,061, which was liquidated as follows: \$60,000 in gold coin, and \$3,061 in U. S. notes.

The Clearing-House Loan Committee cancelled \$300,000 loan certificates outstanding \$37,850. The Committee extended \$100,000 more to-day and \$600,000 to-morrow.

The Boston Committee cancelled \$1,200.

By certificates, amounting to the total outstanding \$1,000.

Foreign exchange was firmer, and posted rates were advanced to 4 1/2-1 and 4 1/4. The supply of gold was smaller than on Monday, while the market improved. Bankers' long sterling sold at 4 3/4-4 1/4-4 1/2 and demand at 4 5/8-5 1/8. These figures are still below the gold shipping point.

GREAT BARGAINS IN SILKS.

Special Marked-Down Sale by Daniel & Sons.

Although most people are suspicious of the marked-down sales so widely advertised by retail firms, yet may one who visits the stores of Daniel & Sons, at Eighth street and Broadway, and examines the goods offered there, will at once be convinced of the genuineness of the reduction in price.

The line in which the firm is offering special opportunities is that of fine silks. No one who has any knowledge of the quality of silks can mistake the genuine quality for goods of inferior quality. There is no doubt that the counters in this store are found some extensive sales in the last few days. The goods have been accumulated through buying in the stores, but have been bought recently in Lyons, France, and placed in the window.

Mr. Daniel, son, said, owing to the continued depression in all business circles, his firm was compelled to make a reduction.

Some of the fine silks—such as the greenings with figure and stripes, but the best of the silks—such as the Armoir silk, with brocade effect, the Figaro, the quilted gold and silver brocade, on black and white, etc.—will be found in the window.

The woolen dress goods department is replete with the latest styles from foreign markets. Many of the goods can be made to measure—tailored to perfection, if any such particular desire could be expressed.

The lining styles here are silk and wool, although the well-made goods are to be highly regarded. In these goods, too, Daniel & Sons declare they are offering opportunities that buyers can obtain nowhere else.
